But there's more. Special game elements, unexpected opportunities and a hidden twist keep the excitement going until the very end!

4 SPECIAL GAME ELEMENTS
The Joker, Flex Tile and other unique elements provide extra depth, flexibility and surprising twists.

5 EXCITING SCORING OPPORTUNITIES
Clever combinations and smart connections can deliver high scores. A single tile can create a huge points boost!

6 THE QUIVARO CARD – THE UNEXPECTED TWIST
Reaching the target score does not automatically mean victory. The Quivaro Card adds a hidden challenge that can change the final winner.

7 HIGH REPLAY VALUE
Thanks to the many combinations, changing opportunities, tactical choices and unexpected developments, no two games are ever the same. Always discover new strategies!

LANGUAGE-INDEPENDENT
QUIVARO is developed without any text on the game components, so it can be played worldwide. Only the rulebook needs to be translated, keeping production costs low.

COLOUR-BLIND FRIENDLY
Each tile has a unique symbol (shape) next to the number, so all players can easily recognise and play the colours.

THE QUIVARO CARD
The Quivaro Card is a unique and exciting element that adds extra tension to the game. When the target score is reached, this card comes into play.
The player with the highest total points on the card wins!

One tile can change everything!
